HSH made their first Ethiopian drilling trip for 2016 in March of 2016 and drilled five successful water wells in the Tigray Woreda of central Ethiopia. A second trip was planned for May of 2016, but our partner organization, Restore Hope, was having trouble with their legal status in the country so that trip had to be cancelled. We also had a trip planned for October of 2016, but the week before we were due to leave, violence broke out in the country and the central government declared martial law and suspended their constitution. Due to this uncertainty certain assets were fully depreciated. Thus, for the safety of our team members, that trip also had to be cancelled. Martial law was lifted in mid-December and our partners in Ethiopia were able to travel out of the capital city of Addis Ababa to the rural villages where the wells had been drilled in March and found that during the period between the drilling of the wells and December that two of the wells had been vandalized and filled with rocks and were unusable. The other three wells either had pumps on them and were still functional or the pumps were placed on them shortly after that visit. So, corporate political problems and inter-tribal violence limited our ability to drill as many wells as we have in the past, but we are geared up to begin early in 2017 to get the drilling teams again going to the villages to provide much-needed safe water. A change

Jefe WASH programs and the VBS Armour of God were performed in each village school. UNICEF village health assessment forms were completed for each village. Water samples were taken to determine pH and solids levels. We also tested for E. coli. None was found. An exploratory trip was taken to the San Joaquin River Area to look at potential well drilling sites in Guatemala for 2017.
